# 2 THE TWO LIFTS

## 2 THE TWO LIFTS

### 2.1 General

In the sport of Weightlifting the BWL recognises two (2) lifts which must be executed in the following sequence:

- a) The Snatch
- b) The Clean & Jerk

Both lifts must be executed with two hands. A maximum of three (3) attempts is allowed in each lift.

### 2.2 The Snatch

The barbell is centered horizontally on the competition platform. The Lifter takes the start position behind the barbell facing the officials. The Lifter grips the barbell and bends at the knees. The barbell is gripped, palms downward and pulled in a single movement from the platform to the full extent of both arms above the head, while either splitting or bending the legs. During this continuous movement upward the barbell remains close to the body and may slide along the legs. No part of the body other than the feet may touch the platform during the execution of the Snatch. The Lifter may recover in their own time, either from a split or a squat position. The lifted weight must be maintained in the final motionless position, with both arms and legs fully extended and feet on the same line and parallel to the plane of the trunk and the barbell. The Lifter waits for the Referees' signal to replace the barbell on the competition platform. The Referees give the signal to lower the barbell as soon as the Lifter becomes motionless in all parts of the body.

### 2.3 The Clean & Jerk

#### 2.3.1 The first part, the Clean:

The barbell is centered horizontally on the centre of the competition platform. The Lifter takes the start position behind the barbell facing the officials by grabbing the barbell and bending at the knees. The barbell is gripped, palms downwards and pulled in a single movement from the platform to the shoulders, while either splitting or bending the legs. During this continuous movement upward the barbell remains close to the body and the barbell may slide along the legs. The barbell must not touch the chest before it stops at the final position either on the clavicles, chest or on fully bent arms. The Lifter's feet must return to the same line and the legs must be fully extended before starting the Jerk. No part of the body other than the feet may touch the platform during the execution of the Clean. The Lifter may recover in their own time and must finish with the feet on the same line and parallel to the plane of the trunk and the barbell.

#### 2.3.2 The second part, the Jerk:

The athlete must become motionless after the clean and before starting the jerk. The athlete bends and then dynamically extends the legs to move the barbell upwards in one motion to the full extension of the arms while lowering the body under the barbell and either splitting or bending the legs. The athlete then returns the feet to the same line parallel to the plane of the trunk and the barbell with his/her arms and legs fully extended. The athlete waits for the referees signal to replace the barbell on the competition platform.

The Referees give the signal to lower the barbell as soon as the Lifter becomes motionless in all parts of the body.

Before the Jerk, the Lifter may adjust the position of the barbell for the following reasons:

- a) To withdraw or “unhook” the thumbs
- b) If breathing is impeded
- c) If the barbell causes pain
- d) To change the width of the grip

The barbell adjustments noted above are not considered to be an additional attempt at the Jerk.

## 2.4 General Rules for all Lifts

- 2.4.1 The technique known as the hook grip is permitted. It consists of covering the last joint of the thumb with the other fingers of the same hand at the moment of gripping the barbell.
- 2.4.2 In both lifts, the Referees must count as “No lift” any unfinished attempt in which the barbell has reached the height of the knees.
- 2.4.3 After the Referees’ signal to lower the barbell, the Lifter must lower it in front of the body. The grip on the barbell must only be released when it has passed the level of the shoulders.
- 2.4.4 A Lifter who, for any reason, cannot fully extend the elbow(s), must report/display this fact to all on-duty Referees as well as the Jury prior to the start of each lift. This is the sole responsibility of the Lifter.
- 2.4.5 When snatching or cleaning in the squat style, the Lifter may assist their recovery by swinging or rocking their body while in the squat position.
- 2.4.6 The use of chalk (magnesium carbonate) is permitted.
- 2.4.7 The use of grease, oil, water, talcum or any other lubricant on the Lifter’s thighs is forbidden. A Lifter who uses forbidden lubricant(s) is ordered to remove it immediately. If during the removal, the clock is running for that Lifter, the clock remains running.
- 2.4.8 Only the Lifter or the Loaders can move the barbell to a new position on the competition platform during competition. It is forbidden for a Team Official to move, adjust or clean the barbell.
- 2.4.9 It is the sole responsibility of the Lifter to complete each lift in accordance with the BWL TCRR and to the satisfaction of the on-duty Technical Officials.

## 2.5 Incorrect Movements

- 2.5.1.6 Leaving the competition platform or touching the area outside the competition platform with any part of the body before the complete execution of the lift.

- 2.5.3.2 Touching the thighs or the knees with the elbows or the upper arms.

### 2.5.4 Incorrect movements for the Jerk

- 2.5.4.1 Any apparent effort to jerk which is not completed; including, lowering the body or bending the knees.
- 2.5.4.2 Any deliberate oscillation of the barbell to gain advantage. The Lifter must become motionless before starting the jerk.

### 2.6 Incomplete movements and positions

- 2.6.1 Uneven or incomplete extension of the arms at the completion of the lift.

6.4.12 When multiple bodyweight classes are combined into one group, the lighter bodyweight class lifters will weigh in first, followed by the heavier class.

## 6.5 Introduction

6.5.1 Ten (10) minutes before the start of the competition of each bodyweight category or group, the following presentations will be made:

The competitors of the category or group are presented in the order of the lots drawn.

The Technical Officials of the competition are then presented in the following order:

- » Centre Referee
- » Side Referees
- » Chief Marshall
- » Time Keeper
- » Technical Controller(s)
- » Doctor(s) on Duty
- » Jury (introduced whilst in their seats)

Should any competitor not be present for the formal introduction, they will be requested to explain their absence to the Competition Director who will determine the appropriate warning or further action.

## 6.6 Course of the Competition

6.6.1 The barbell is loaded in progression. The Lifter requesting the lightest weight lifts first. Once the announced weight is loaded on the barbell, and the clock has started, the weight cannot be reduced. The Lifter or Team Official must therefore observe the progression of the loading and be ready to make the attempt at the weight they have chosen. This is the sole responsibility of the Lifter/Team Official.

6.6.2 Decision making process for attempts with loading errors

If the barbell is loaded to a lighter weight than the one requested by the Lifter, the Lifter may, if he/she wishes, either accept the attempt if it was successful and provided the barbell was loaded to a multiple of 1 kg, or refuse it. If he/she refuses the attempt, the Lifter is granted an additional attempt with the weight originally requested.

If the barbell is loaded to a heavier weight than the one requested by the Lifter, the Lifter may, if he/she wishes accept the attempt if it was successful and provided the barbell was loaded to a multiple of 1kg. If the attempt is not successful or if the barbell is not a multiple of 1 kg, the Lifter is automatically granted an additional attempt with the weight originally requested.

6.6.3 The weight of the barbell must always be a multiple of one (1) kg.

6.6.4 The automatic progression after any successful attempt for the same Lifter must be a minimum of one (1) kilogram. If the lift is unsuccessful the weight on the barbell automatically remains the same.

6.6.5 The minimum weights that can be lifted at BWL Events are:

Men = twenty-six (26) kg (20kg bar, 2.5kg collars, and two 0.5kg discs)

Women = twenty- one (21) kg (15kg bar, 2.5kg collars and two 0.5 kg discs)

U13 and below = ten (10) kg (5 kg bar, spring collars and two 2.5 kg full size discs)

6.6.6 The total weight of the starting attempts declared and actually taken in the Snatch and the Clean & Jerk cannot be less than twenty (20) kg below the verified entry total for Women and twenty (20) kg below the verified entry total for Men. The Competition Director will exclude the Lifter from the competition if this rule is not adhered to. The above rule is commonly referred to as the "20 Kilo Rule" and will be applied as stated in the most current IWF rules.

6.6.7 Calling Order

The following four (4) factors listed in priority must be considered when calling the Lifters:

1. The weight of the barbell (lightest weight first)
2. The number of the attempt (lowest number first)
3. The sequence/order of the previous attempt(s) (the Lifter who lifted earliest is first)
4. The lot number of the Lifter (lowest first)

6.6.8 One (1) minute (60 seconds) is allocated to each Lifter between the calling of their name and the beginning of the attempt. After thirty (30) seconds, a warning signal sounds.

When a Lifter attempts two (2) lifts in succession, they are allowed two (2) minutes (120 seconds) for the succeeding attempt. (For exception see 6.6.9)

Thirty (30) seconds before the end of the allocated time, a warning signal sounds. If at the end of the allocated time the Lifter has not raised the barbell from the competition platform to make the attempt, this attempt is declared "No lift" by the three (3) Referees.

The timing clock is started the moment the Speaker finishes the announcement of the attempt in English or when the barbell is loaded and the loaders have left the platform, whichever is last. The clock is stopped the moment the bar leaves the platform at the start of the attempt.

6.6.9 A Lifter is granted only one (1) minute if while taking two lifts in succession the calling order changes and the clock starts for another Lifter.

6.6.10 The weight announced by the Speaker must be immediately displayed on the Attempt Board.

6.6.11 When a Lifter wishes to increase or decrease the weight originally selected, the Team Official / Lifter must notify the Chief Marshal by signing the Lifter's Card. In order to increase the weight the Team Official / Lifter must sign the Lifter's Card before the final call (except TCRR 6.6.13). In order to decrease the weight, the clock must not have started for the Lifter.

6.6.12 The final call is the signal given by the timing clock thirty (30) seconds before the end of the allocated time.

6.6.13 Before the first attempt and between two attempts the Team Official / Lifter must notify and sign the next attempt on the Lifter's Card; both for declaration and automatic increment. This signature enables two (2) changes.

If the Team Official / Lifter fail to do so before the final call (30 seconds), the Lifter will be called according to the automatic progression.

When a Lifter is taking consecutive attempts (2 minutes allocated time), the Team Official / Lifter must declare the next attempt within the first thirty (30) seconds after being called, even if it is the automatic increment.

Failure to do so will forfeit the two (2) changes allowed. The Lifter will then have to take the automatic increment.

6.6.14 When the Team Official / Lifter asks for a change of weight and still has to take the heavier weight next, the clock is stopped while the weight is changed. After the change of weight has been completed, the clock continues to run. When the Team Official / Lifter asks for a change of weight and, in doing so, follows another Lifter, the normal one (1) minute (60 seconds) applies for the next attempt.

6.6.15 The Team Official / Lifter must sign the Lifter's Card if they wish to withdraw from lifting either during the Snatch or the Clean & Jerk portions of the competition, or both. It must be noted and signed on the Lifter's Card that they are withdrawing from the respective lift.

Once the Lifter's Card has been signed the withdrawal is official and the Lifter cannot re-enter the competition in that respective lift. The Speaker then announces the withdrawal.

6.6.16 During competition only on-duty Technical Officials, authorised personnel, authorised Team Officials (See TCRR 6.4) and Lifters of the specific group are allowed in the FOP.

6.6.17 Only two (2) Team Officials are permitted to stand at the designated area / entrance of the competition platform / stage.

## 6.7 Break

6.7.1 There is no break between the Snatch and the Clean & Jerk; unless there are six or less competitors, in which case the Competition Director may insert a break in time between the two lifts at their discretion.

6.7.2 There is a ten (10) minute break between each of group of competitors in line with the Introduction.

6.7.3 The Competition Director may shorten or lengthen the break. An appropriate announcement to all relevant parties (Lifters, Team Officials, Technical Officials, sport production, broadcast, spectators, etc.) must be made.
